Presentation

Saffie is my name and I live in Broken Arrow, OK, but was born in Sweden. I'm a happy and positive person with a lot of ambition. I am very outgoing and social and therefore I think it is great fun to work with service oriented professions. Moreover, I am an idea finder, probably because I am a very creative person and where others see problems I see solutions.

Computers are a great interest and I love to create things. This has led to an interest in web design and digital design in general.

Other major interests are culture, language and people in general. It is probably due to that I traveled a lot, both as a child and as an adult, which makes it easy for me to communicate with people and I know a little of several languages. Swedish and English I speak fluently.

I am also very flexible and I quickly adapt to new situations and I am always ready to try something new.
